APPLICATION OF THE CODE

The Board of Directors of New Frontiers Public Schools has adopted this Student Code of Conduct (the “Code”) in accordance with Section 12.131 of the Texas Education Code, in order to clearly communicate standards for expected student conduct, the disciplinary consequences which may be applied to students who violate those standards, and the applicable procedures for the implementation of disciplinary consequences. All students must comply with the Code. Definitions of words and phrases used throughout this Code are provided at the end of the Code.

Parents and students are encouraged to contact campus administration with any questions or concerns regarding the requirements and provisions of the Code. Parents and students are expected to review and be familiar with the provisions of the Code. Lack of knowledge or awareness about any School rules, including this Code, will not excuse violations of the Code. Parents and students will be required to sign a statement acknowledging receipt and understanding of the Code. A copy of this Code is available online at www.newfrontierspublicschools.org.

The School has the authority to create and enforce rules related to student conduct and behavior while on school property, traveling to or in attendance at a school-sponsored or school-related event or activity, whether on or off campus. The School has the authority to issue disciplinary consequences for certain other student conduct that relates to, affects, or shares a nexus with the School, its students, or its employees regardless of when or where the conduct occurs. The School may also issue discipline based on a student’s use of electronic media, whether on or off campus.

Other School rules, codes or policies may apply to a student’s misconduct and may result in multiple disciplinary consequences issued for the same conduct.

In considering a student’s request for admission, the School may consider the student’s history of a criminal offense(s), juvenile court adjudication(s), or disciplinary problems under subchapter A, Chapter 37 of the Education Code, as evidenced by records received from schools previously attended by the student, law enforcement, or any other relevant documentation, and may exclude the student from admission on this basis.

If a student who would otherwise be ineligible for admission to the School provides false information on an admissions application or other enrollment document and as a result of the false information is admitted to the School, the student shall be immediately withdrawn from enrollment from the School upon discovery of the falsification. Falsification of information for the purpose of gaining enrollment in a public school is a criminal offense under § 37.10 of the Texas Penal Code. The School may elect to report the falsification to law enforcement or take any other action permitted by law.

EXPECTATIONS FOR STUDENT CONDUCT

Students are expected to comply with the school's technology, and electronic media use policies and procedures. Students are also expected to demonstrate the same behavior online or while using electronic media as is expected in the classroom, on school property, or at school-related events. Sending, posting, or possessing electronic messages that are disrespectful, disruptive, abusive, obscene, illegal, threatening, harassing or damaging to another person disrupts the learning environment and will not be tolerated.

Parent cooperation is essential to achieving the school's mission and ensuring that students learn in a safe, secure and positive environment. Parental involvement and cooperation are vital in the discipline process. Parents should understand and be familiar with the Code, ensure that his or her child understands and seeks to comply with this Code, and assist the school in counseling students regarding appropriate behavior.

DETERMINING APPROPRIATE DISCIPLINE

Depending on the nature and severity of the offense, discipline may be issued by the student's classroom teacher, campus administrator, or administrator's designee, in accordance with this Code. In order to make a determination of misconduct or issue disciplinary consequences under this Code, the authorized school employee must have a reasonable belief that the student engaged in the suspected conduct. The employee's conclusion may be based on any relevant evidence including, but not limited to, observation, other personal knowledge, verbal or written witness statements, other forms of documentation, or information received from law enforcement.

In reaching a decision regarding a student discipline matter, the school may consider the specific facts and circumstances of the situation, including but not limited to:

- The student's intent;
- The student's age and grade level;
- The student's past disciplinary history;
- Whether the student's conduct may have been the manifestation of a disability;
- The extent of the student's cooperation during the investigation of the matter;
- The nature and severity of the alleged conduct;
- Whether the student has previously engaged in similar conduct;
- Whether self-defense was involved;
- The student's remorsefulness for the conduct;
- The severity of the effect or harm of the conduct on other persons or property;
- The frequency of the conduct.

The school may issue discipline based on a determination that a student has engaged in conduct which meets the elements of a criminal offense. The school has the authority to make such a determination without regard for whether the student is arrested, charged, or otherwise processed by the criminal justice system for the criminal offense. The school may consider information received from law enforcement or other entities within the criminal justice system in issuing discipline under this code.

Actions will not be based on a student's race, ethnicity, national origin, gender, sex, religion, disability, or any other unlawful consideration.

INVESTIGATION OF DISCIPLINE ISSUES

In order to determine whether a violation of the Code has occurred, campus administrators or other authorized individuals may conduct an investigation. Investigations of student misconduct may involve, but are not limited to, interviews of other students, employees and adults, review of school surveillance footage, review of relevant documents, review of information on school-owned computers, verification of tips received from other individuals, gathering of physical evidence, contact of or cooperation with law enforcement agencies and officials. Law enforcement may be contacted and informed of student conduct which may constitute a criminal offense.

Students should have no expectation of privacy with respect to the school-owned property. Desks, and other items provided for student use remain school property, and students do not have a reasonable expectation of privacy in school property or in personal items placed inside school property. School administrators or other authorized personnel may monitor and search student desks and lockers for any reason. School officials may search any School property, including School property that is within a student's possession or otherwise being used by a student, at any time, with or without notice to the student and without consent. School officials may confiscate any items found during a search, including prohibited items, dangerous items or other items that violate School policy.

A student's person or property may be searched by authorized school officials if the official has a reasonable belief that the search will result in the discovery of evidence of a violation of the code or of the law. Any personal property which is brought onto school property or to a school-sponsored or school-related activity or event, on or off school property, may be subject to search (e.g., student cell phone, backpack, personal computer, purse, car, etc.).

FREEDOM FROM BULLYING AND CYBERBULLYING

New Frontiers Public Schools prohibits bullying as defined by this section, as well as retaliation against anyone involved in the complaint process. Bullying means a single significant act or a pattern of acts by one or more students directed at another student that exploits an imbalance of power and involves engaging in written or verbal expression, expression through electronic means, or physical conduct that:

Consider this: Not all student misconduct is created equal, and a "zero tolerance" system of discipline may not be the right fit for your school. By listing those additional factors that the school may take into consideration when issuing discipline, you can provide flexibility for your decision makers to ensure that discipline decisions are fair and appropriate. The factors that are included in the list below are commonly considered in justifying more or less severe punishment, but are provided as suggestions only.

- Has the effect or will have the effect of physically harming a student, damaging a student's property, or placing a student in reasonable harm to the student's person or of damage to the student's property;

- Is sufficiently severe, persistent, or pervasive enough that the action or threat creates an intimidating, threatening, or abusive educational environment for a student; or
- Materially and substantially disrupts the educational process or the orderly operation of a classroom or the school; or
- Infringes on the rights of the victim at school.

Cyberbullying is bullying that is done using any electronic communication device, including by a cellular or other type of telephone, a computer, a camera, electronic mail, instant messaging, text messaging, a social media application, an Internet website, or any other Internet-based communication tool.

The school's bullying policy applies to:

- Bullying that occurs on or is delivered to school property or to the site of a school-sponsored or school-related activity on or off school property;
- Bullying that occurs on a publicly or privately-owned school bus or vehicle being used for transportation of students to or from school or a school-sponsored or school-related activity; and
- Cyberbullying that occurs off school property or outside of a school-sponsored or school-related activity if the cyberbullying:
 - Interferes with a student's educational opportunities; or
 - Substantially disrupts the orderly operation of a classroom, school, or school-sponsored or school-related activity.

Reporting Procedures

Any student who believes that he or she has experienced any form of bullying or believes that another student has experienced bullying should immediately report the alleged acts to the Principal or designee, a teacher, counselor, or other school employee. A report may be made orally or in writing and may be submitted anonymously. Any school employee who receives notice that a student has or may have experienced bullying shall immediately notify the Principal or designee. The Principal or designee will notify the victim, the student who engaged in bullying, and any student witnesses of available counseling options.

The Principal or designee shall provide notice of incident of alleged bullying to:

- A parent or guardian of the alleged victim on or before the third business day after the date the incident is reported; and
- A parent or guardian of the alleged bully within a reasonable amount of time after the incident.

Investigation of Report

The Principal or designee shall determine whether the allegations in the report if proven, would constitute prohibited harassment and, if so, proceed under that policy instead. The Principal or designee shall conduct an appropriate investigation based on the allegations in the report, and shall take prompt interim action calculated to prevent bullying during the course of an investigation, if appropriate.

The Principal or designee shall prepare a written report of the investigation, including a determination of whether bullying occurred. If the results of an investigation indicated that bullying occurred, the school shall promptly respond by taking appropriate disciplinary or corrective action reasonably calculated to address the conduct in accordance with the Student Code of Conduct. New Frontiers Public Schools may

take action based on the results of an investigation, even if the school concludes that the conduct did not rise to the level of bullying under this policy.

Discipline for bullying of a student with disabilities shall comply with applicable requirements under federal law, including the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 *et seq.*). New Frontiers Public Schools may not impose discipline on a student who, after an investigation, is found to be a victim of bullying, based on that student's use of reasonable self-defense in response to the bullying.

The Principal, or the Principal's designee, may make a report to the police department of the municipality in which the school is located or, if the school is not in a municipality, the sheriff of the county in which the school is located if, after an investigation is completed, the Principal or designee has reasonable grounds to believe that a student engaged in conduct that constitutes an offense under Section 22.01 (Assault) or 42.07(a)(7) (Harassment), Texas Penal Code.

Confidentiality

To the greatest extent possible, New Frontiers Public Schools shall respect the privacy of the complainant, persons against whom a report is filed, and witnesses. Limited disclosures may be necessary to conduct a thorough investigation.

Appeal

A student or parent who is dissatisfied with the outcome of the investigation may appeal through the New Frontiers Public Schools grievance procedure.

DISCIPLINE OF STUDENTS WITH SPECIAL NEEDS

Students eligible for services under the Individuals with Disabilities in Education Act (IDEA) or Section 504 of the Rehabilitation Act of 1973 (Section 504) are subject to discipline under those laws and in accordance with the provisions of this Code.

The School may take disciplinary action pertaining to the use or possession of illegal drugs or alcohol against any student with a disability under Section 504 who is currently engaging in the illegal use of drugs or in the use of alcohol to the same extent that the School would take disciplinary action against nondisabled students. The due process procedures afforded under Section 504 do not apply to disciplinary action for the use or possession of illegal drugs or alcohol. However, a student who is eligible for special education under the IDEA should have a manifestation determination review conducted to address any use or possession of illegal drugs or alcohol if such conduct could result in a change of placement.

Any disciplinary action that would constitute a “change in the placement” of a student receiving special education services may be taken only after the student’s Admission, Review, and Dismissal (ARD) committee conducts a manifestation determination review in order to determine whether the student’s conduct was a manifestation of his or her disability.

A change in placement occurs if a student is:

1. Removed from the student’s current educational placement for more than ten consecutive school days; or
2. Subjected to a series of removals that constitute a pattern because:
 - a. The series of removals total more than ten school days in a school year;
 - b. The student’s behavior is substantially similar to the student’s behavior in the previous incidents that resulted in the series of removals; and
 - c. Additional factors exist, such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another.

The School will determine, on a case-by-case basis, whether a pattern of removals constitutes a change in placement.

A student who has not been determined eligible for special education services and who has engaged in behavior that violates the code is entitled to the protections under the IDEA regarding discipline of a student with special needs described above if the school has knowledge that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred. If the school does not have knowledge that a student is a student with a disability prior to taking disciplinary action, the student may be subject to the disciplinary actions applied to students without disabilities. If a request is made for an evaluation of a student during the time period in which the student is subjected to disciplinary action, the evaluation shall be conducted in an expedited manner.

Refer to the New Frontiers Public Schools Board Policy for more information regarding special education services.

TYPES OF DISCIPLINE

Available disciplinary consequences include:

- Parent conference;
- Verbal correction;
- Counseling;
- Conference with teacher or administrator;
- Education/training;
- Improvement plan;
- Community service;
- School-related assigned tasks or duties;
- Loss or restriction of privileges (*e.g.*, eligibility to hold special positions, exemption from exams, etc.);
- Consequences related to student participation in extracurricular activities, including removal, suspension, or restriction of participation;
- Removal from class to campus office;
- Issuance of demerits;
- Confiscation of items;
- Detention;
- In-School Suspension;
- Other alternative placement;
- Out-of-School Suspension;
- Mandatory Withdrawal;

Expulsion

One or more of these disciplinary consequences may be issued to a student found to have violated the code. If the code does not specify the appropriate disciplinary consequence for a particular type of student conduct, the school may issue whatever disciplinary consequence is deemed reasonable and appropriate, with the exception of expulsion. A teacher may have additional rules and consequences for student conduct in the classroom which may result in discipline under this code or may be enforced in addition to any discipline issued under this code.

If a student withdraws from the school before completing assigned In-School Suspension, Out-of-School Suspension, or Expulsion, the school shall send documentation of the discipline to the next school that enrolls the student. If a student withdraws from the school before the expulsion process is completed, the school may choose to complete the expulsion process and send documentation of the expulsion decision to the next school that enrolls the student. If the student returns to enroll in the school at a later date and has not been required to complete the disciplinary consequences previously required, the school may require the student to complete the discipline upon return.

The code shall be applied and enforced consistently and equitably among students, with the understanding that every disciplinary situation will differ, and decisions will be made based on the individual facts and circumstances of a given situation.

DETENTION / IN-SCHOOL SUSPENSION

A student may be assigned to one or more sessions of detention for engaging in prohibited conduct under this code. The student's parent or guardian will be notified by phone and in writing of the student's conduct and assignment to detention. Detention will be held outside of the instructional day, either before or after school.

OUT-OF-SCHOOL SUSPENSION

A student may be suspended for one or more school days for engaging in prohibited conduct under this Code. The student's parent or guardian will be notified by phone and in writing of the student's conduct and the length of the period of suspension. A student may not be suspended for more than three consecutive school days. During a period of suspension, the suspended student may not enter onto school property or participate in or attend school-sponsored or school-related events or activities. The student's teachers will provide assignments that the student will be expected to complete during the period of suspension. Student assignments or other class work completed during a period of suspension will be accepted for grading if completed in a timely fashion.

DISCRETIONARY/PERMANENT WITHDRAWAL

A student may be withdrawn for engaging in the severe prohibited conduct.

DISCRETIONARY/PERMANENT WITHDRAWAL PROCESS

The School Board delegates to the Superintendent or the Superintendent's designee the authority to permanently withdraw students. The Superintendent or the Superintendent's designee schedules a hearing within a reasonable time with the student's parents and the student. The student's parent or guardian is given written notice to attend the hearing. The district makes a good-faith effort to inform the parent or legal guardian about the time and place of the hearing. After the district makes this good-faith effort, the district holds the hearing regardless of whether the student, the student's parents or guardian, or other adult representing the student attends the hearing. Until a hearing can be held, the principal may temporarily place the student in:

- Out-of-School Suspension (3-day limit)

A student facing permanent withdrawal is given appropriate due process as required by federal law. The student is entitled to:

- The right to an adult representative who is not a district employee or legal counsel who can provide guidance to the student
- An opportunity to testify and to present evidence and witness in the student's defense
- An opportunity to question the district's witnesses

The Superintendent or designee on a case-by-case basis determines the duration of a student's withdrawal. The duration of a withdrawal shall not exceed one (1) calendar year. State and federal law requires a student to be withdrawn from the regular classroom for a period of at least one (1) calendar

year for bringing a firearm to school or possessing a firearm at school, as defined by federal law and state law 37.007 (a)(1)(a). However, the Superintendent or Superintendent's designee may modify the length of the withdrawal on a case-by-case basis. Withdrawn/suspended students are prohibited from being on school grounds or attending school-sponsored or school-related activities during the period of withdrawal.

EXPULSION PROCESS

If the school Superintendent or designee determines that the student's conduct warrants expulsion, the Superintendent or Superintendent's designee shall provide written notice to the parent, guardian, or adult student of the proposed expulsion of the student. The written notice shall also include the reason(s) for the proposed expulsion and the date, time, location and procedure for the expulsion hearing. The student is entitled to a due process hearing with the District's Hearing Officer during which the student and/or the student's representative (*e.g.*, parent, guardian, attorney, other) will have the opportunity to review and present evidence and information. The District's Hearing Officer may place reasonable restrictions on the conduct of the hearing, including the length of the presentations. At the end of the hearing, the District's Hearing Officer may issue a decision immediately or may wait until a later date to communicate a decision. The District's Hearing Officer shall send written communication of the decision to the parent, guardian or adult student. If the District's Hearing Officer determines that expulsion be appropriate, the written decision ("Expulsion Order") shall include the length of the term of expulsion.

The parent, guardian or adult student may choose to **voluntarily** waive the right to an expulsion hearing by signing a hearing waiver form provided with the notice of proposed expulsion. If the hearing is waived, the District's Hearing Officer will review the relevant evidence and issue a written decision to the parent as described above.

The District's Hearing Officer will notify the independent school district in which the student resides of the student's expulsion within three business days of the Expulsion Order.

DISCIPLINE APPEAL PROCESS

With the exception of expulsions, student discipline decisions at the campus level are final and not appealable. A parent, legal guardian, or adult student may appeal an expulsion decision by filing a written appeal with the Superintendent within 5 business days of the date of the Expulsion Order. The Superintendent or Superintendent's designee will review the record of the expulsion proceedings at the campus level, along with any other relevant information, and will issue a written decision to the appealing party within 10 business days of receiving the request for review.

If the appealing party is not satisfied with the decision of the Superintendent or Superintendent's designee, he or she may appeal that decision to the Board of Trustees by filing a request for review with the Superintendent's office within 5 business days of the date of the decision. The Superintendent shall notify the Board President and arrange for the Board of Trustees to hear the complaints of the appealing party at the next available board meeting. The Superintendent shall notify the appealing party of the location, date and time of the hearing in front of the Board of Trustees. The decision of the governing body is final and not appealable. An expulsion action will not be delayed during the appeal process.
